

DANISH SMART ENERGY R&D DAYS IN CHINA

25-27 FEBRUARY 2014

Draft Programme

25 February 2014, Beijing

- **Expert presentations on Chinese smart grid**
- **China-Denmark R&D Seminar on Smart Energy**

Speakers will present the latest developments within smart energy research and cutting-edge applications with a view to identify and stimulate collaborative research possibilities, innovation activities, and business opportunities. There will also be room for networking.

The seminar will have invited speakers among authorities, companies, universities and knowledge institutions in China and Denmark.

Speaking opportunities are available for Danish participants.

26 February 2014, Beijing

- **Workshop with and site visit to Institute of Electrical Engineering, Chinese Academy of Sciences**
- **Workshop with and site visit to Department of Science and Technology and Smart Grid, State Grid Cooperation of China (SGCC) and China Electric Power Research Institute, SGCC**

27 February 2014, Shanghai

- **Workshop with and site visit to Smart Grid R&D Center, Shanghai Jiao Tong University**
- **Site visit a company** e.g. BYD or Electric Power Research Institute of Shanghai Municipal Electric Power Company

NB: The Chinese partners have all expressed their interest, but none have yet been confirmed.
