

Dr. Wangxing Sheng, director of Electric Power Distribution Department of China Electric Power Research Institute (CEPRI). He received his B.Sc. M.Sc. and Ph. D. degrees all from Xian Jiaotong University in 1989, 1992 and 1995 respectively. He has been with the Institute of Automation, Chinese Academy of Sciences from 1995 to 1997 as a post doctoral research fellow. He was the director and deputy general manager of Rural Electrification Department at CEPRI from 1997 to 2008. He is a member of Chinese Society of Electrical Engineering (CSEE) and member of Rural Electrification Standardization Technical Committee of Electric Power Industry. His main research interests include the power system automation, information technology in power system and micro-grid technology and power system simulation. He has been the prime investigators for projects related with distribution generation and micro-grid. He has a series of publications and more than ten patents in the related field.
